## 1997-98 Organizational Support Program

The **Organizational Support Program (OSP)** was created to encourage the artistic and administrative development, stability, and vitality of California arts organizations. By supporting a diversity of arts organizations, the CAC furthers its goals of increasing accessibility to the arts and stimulating economic and community development through the arts. Awards to organizations at various levels of development help them to achieve a wide range of objectives. Applicant organizations may request funds for general operations or for specific projects related to their overall development goals.

The OSP's nine discipline-based grant review panels met in Sacramento from March through July 1997.

The program received 681 requests for funding representing 395 Full applications and 286 Second-Year reports, submitted by 1996-97 grantees which will carry their rank into the 1997-98 funding cycle.
